

SCORLEY

TROLLEY TYPE ROBOTIC SCORING SYSTEM

Meet SCORLEY

Fully automatic scoring for trays/peel boards on rack trolleys.

Roll in a loaded trolley and press Start. **SCORLEY gently withdraws each tray/board, scores the doughs with precision, returns it to its slot, then lifts to the next level.** Finishes a full trolley in just a few minutes. No manual loading or unloading of trays/boards required.

Compact and versatile, SCORLEY fits into tight spaces and works seamlessly with rack/trolley proofers, and with both rack and tunnel ovens.

- Save labor and reduce costs
- Boost throughput and consistency
- Improve hygiene and ensure food safety

SCORLEY — automated scoring, perfected.

Features

- Automatic trolley locking mechanism
- Automatic scoring operation
- Automatic blade cleaning
- Adjustable scoring parameters
- Online UPS for electricity outages
- Remote access for distant service/assistance

Capabilities

- Capacity/Speed : 2.5 minutes / 16 racks
- Supply Voltage : 380 VAC
- Weight : 1000 kg
- Dimensions : W 1500, D 2500, H 2200 mm
- Environment : 24/7 operation in varying light, temperature and humidity conditions (indoor)

Benefits

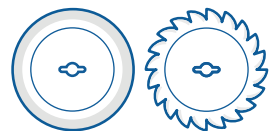

- Eliminates scoring labour
- Reduces labour and operational costs
- Reduces dough scrap by quality scoring
- Reduces work accidents
- Increases food safety and profitability
- Superior return-on-investment
